LinkedIn: linkedin.com/in/kushank-narula-543b433aa GitHub: github.com/kushanknarula-23

Professional Summary

Enthusiastic B.Tech student with hands-on experience building full-stack MERN applications. Skilled in React.js, Node.js, Express.js, MongoDB, secure authentication, RESTful APIs, and AI integrations. Passionate about modern web development.

Education

Bachelor of Technology (B.Tech)

I.K. Gujral Punjab Technical University

Expected Graduation: 2027

CGPA: 7.95

Technical Skills

Languages: C++, JavaScript

Frontend: React.js, Redux Toolkit, Tailwind CSS, Framer Motion, HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB, Redis (Learning)

Authentication: JWT, Firebase Authentication, bcrypt

Tools: Git, GitHub, Postman, REST APIs, Recharts, OpenRouter API

Projects

AI Smart Interview Platform — Full-Stack MERN Application

Tech Stack: React.js, Tailwind CSS, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, Firebase Authentication, Multer, OpenRouter API

- Engineered a full-stack mock interview platform with **10+ features**, leveraging **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Implemented **4 key security mechanisms** including **JWT authentication**, **HTTP-only cookies**, **Firebase Google Sign-In**, and **secure refresh token rotation**.
- Integrated the **OpenRouter API** to generate intelligent interview questions and personalized feedback while designing scalable RESTful APIs with centralized global error handling.

AI-Powered Personal Finance — Full-Stack MERN Application

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Recharts, REST APIs, Naive Bayes NLP

- Built a full-stack personal finance platform with **8+ core modules** including expense tracking, budgeting, financial goals, analytics, and dashboards using the **MERN stack**.
- Developed an intelligent **Financial Engine** implementing **4 AI-driven capabilities**: spend forecasting, anomaly detection, financial health scoring, and personalized financial insights.
- Designed secure RESTful APIs with **JWT authentication**, integrated **Naive Bayes NLP** for automatic expense categorization, and created interactive dashboards using **Recharts**.

Relevant Coursework

Data Structures & Algorithms Object-Oriented Programming Database Management Systems Operating Systems Computer Networks Software Engineering

Achievements

- Participated in the **Smart India Hackathon (SIH)**, collaborating on the design and development of an AI-based solution to address real-world challenges.
- Built full-stack MERN applications integrating secure authentication, scalable RESTful APIs, and modern backend architecture.
